Full Stack Developer / Web Developer / Frontend Developer

PROFESSIONAL SUMMARY

B.Tech Computer Science & Engineering graduate with hands-on experience building responsive web applications, e-commerce platforms and business management systems. Skilled in React, TypeScript, Supabase, PHP, Laravel, MySQL and JavaScript, with practical experience in CRUD, authentication, role-based access, REST/API integration, responsive UI and Git/GitHub. Completed a Web Developer internship and developed full-stack projects including a clothing e-commerce platform, inventory management system and portfolio website. Comfortable using AI-assisted development workflows for implementation, debugging and feature development.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript, TypeScript, React, Bootstrap 5, Responsive Web Design
Backend	PHP, Laravel
Database / Services	MySQL, Supabase
Development	CRUD, Authentication, Role-Based Access, REST/API Integration, AJAX, E-commerce Workflows, Debugging
Tools	Git, GitHub, VS Code, XAMPP

INTERNSHIP EXPERIENCE

Web Developer Intern — Arth Consultancy Service

Dec 2024 – Feb 2025

Vadodara, Gujarat

- Worked on responsive UI implementation, website updates, debugging and functional improvements.
- Applied HTML, CSS, JavaScript and backend/database concepts to implement and modify web functionality.
- Worked under practical development and testing workflows, strengthening reusable code, debugging and website structure skills.

PROJECTS

Hellaro Fashion Mall — Full-Stack E-commerce Platform | React, TypeScript, Supabase

Live Demo: <https://hellaro-frontend-demo.vercel.app/>

- Developed a production-style clothing e-commerce platform with customer shopping flows and a separate admin management interface.
- Implemented product catalog, categories, variants, colors/sizes, image galleries, wishlist, cart, checkout, orders, notifications and customer profile workflows.
- Built responsive UI with search, filtering, animations, dark/light theme support and mobile-friendly navigation.
- Worked with Supabase authentication, database-backed CRUD operations, role-based admin access, image handling and deployment preparation.

Store Management & Inventory System | PHP, MySQL, Laravel

Live Website: invoicepromax.infinityfreeapp.com

- Built a business-oriented inventory management system for products, stock and store records through CRUD workflows.
- Implemented product/inventory management, low-stock monitoring, search and category browsing for stock control.
- Included cart and checkout workflows with payment options and invoice generation.
- Developed the responsive interface and backend using PHP, Laravel, MySQL, HTML, CSS, JavaScript and Bootstrap.

Personal Portfolio Website | HTML, CSS, JavaScript

Live Portfolio: <https://nitesh167860.github.io/portfolio/>

- Created a responsive portfolio website showcasing skills, projects, experience and contact information.
- Implemented typing effects, project cards, animations, responsive navigation and dark/light mode using Local Storage.
- Deployed the portfolio using GitHub Pages and maintained the project through Git/GitHub.

EDUCATION

B.Tech / B.E. — Computer Science & Engineering

2021 – 2025

Parul University

Graduated

Vadodara, Gujarat

ADDITIONAL STRENGTHS

- Fast learner with strong interest in practical software solutions, automation and web development.
- Comfortable learning new tools quickly and using AI-assisted workflows for implementation and debugging.
- Open to full-time opportunities, internships and project-based work in Ahmedabad, Remote and across India.
